

Updated every day

200 Airports

4 Modules

20 Data Sets

Air4casts' iPhone App for Travel Retail

The Top 200 Global Airports in your pocket

Our iPhone App displays the existing Air4casts Infographics feature, offering beautiful and in-depth data summaries of the Top 200 Global International Airports, drawing on data from our main Modules, and it is available on all iPhones.

Big Data

See data from Airports 1500, Nationalities 1000, Routes 1000 and Retail Reach. This unique combination creates full airport profiles with extraordinary detail.

Intuitive Function

The App is smooth and easy to use, with online and offline modes, downloading capability and an inbuilt user guide. Every graph in App is also animated.

Updated Every Day

Drawn from our servers, the data on the App is updated every day. The infographics reflect the changes the second you log in.

Fully Customisable

Subscribers needn't stop there. Any Air4casts data and analysis can be added to the App for all team members. All aspects can be customised.
